

How To Resolve The “No Available MTD period” Error

To start, type MTD into the search bar, and select “MTD Registration”.

You will then be presented with this screen.

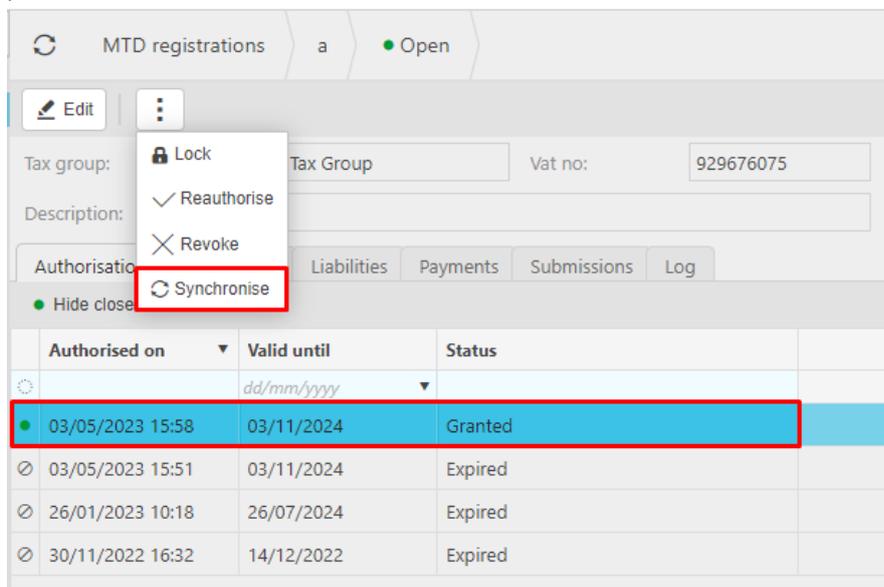

The next step will be to select the relevant tax group for the current VAT return.

The screenshot shows the 'MTD registrations' page. At the top, there's a header with 'MTD registrations', 'All', and a settings gear icon. Below that is a 'New' button and a search bar. The main content is a table with the following columns: 'Tax group', 'Legal entities', and 'Vat no'. There are two rows of data:

	Tax group	Legal entities	Vat no
<input type="checkbox"/>	LEGE A & B Tax Group	Legal Entity B, Legal Entity A	929676075
<input type="checkbox"/>	tg2	-	324988563

Once you drill into the Tax group, select the period relevant to the current submission. Next, click the ellipsis at the top of the page, followed by the synchronise button

The screenshot shows the 'MTD registrations' page with a dropdown menu open. The menu options are: 'Lock', 'Reauthorise', 'Revoke', and 'Synchronise'. The 'Synchronise' option is highlighted with a red box. Below the menu, there's a table with columns: 'Authorised on', 'Valid until', and 'Status'. The first row is highlighted with a red box:

	Authorised on	Valid until	Status
